Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 19 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and wet.

Today:
Extensive low cloud with outbreaks of light rain and drizzle during the morning, steadily turning more persistent. Rain will become heavy at times through the afternoon, especially in the west and across the Pennines. Light winds and feeling cold. Maximum temperature 6 deg C (43 deg F).

Tonight:
Persistent and at times heavy rain will continue throughout the night with extensive low cloud and light winds. Remaining cold with sleet and snow possible over highest hills. Minimum temperature 2 deg C (36 deg F).

Wednesday:
Another cloudy and wet day with further periods of heavy rain, which may increasingly turn to snow over hills. Generally light winds and staying cold. Maximum temperature 5 deg C (41 deg F).

Outlook for Thursday to Saturday:
Cold and windy on Thursday and Friday with sunny spells and wintry showers. Perhaps drier and brighter on Saturday with lighter winds. Risk of frosts overnight.
